

Year: 2
 Term: Summer 2
 Topic: Creating Media - Digital Music

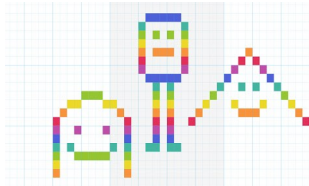

Making Music

We can use digital devices to help us to create, edit and listen to music.

Music can make us think and feel different things.

Rhythm, pitch and tempo can be used to change the sound and emotion of music.

We can also use lots of different apps and programs to create music, including **Chrome Music Lab** and **Chrome Song Maker**.

Describing Music

Music is a type of art that can be heard. It can make us feel different **emotions**.

Some words to **describe** music:

loud	soft	gentle	fast	slow
catchy	boring	interesting	noisy	
smooth	modern	old-fashioned	scary	

Music can make us feel different emotions:

happy	sad	excited	depressed
bored	worried	angry	nervous
scared	surprised	motivated	tired

Glossary

- pitch** how high or low a sound is.
- pulse** The steady beat, like a ticking clock or a heartbeat.
- rhythm** The pattern of long and short sounds in music.
- tempo** How fast or slow the music is.
- volume** How loud or quiet something is.

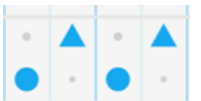

On **Chrome Music Lab**, click on the multi-coloured smiley face for **Song Maker**.

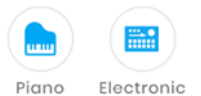

By clicking on the different squares, you can make different musical notes. The higher up you click, the higher the pitch!

Clicking on the shapes below the notes allows you to add in percussion e.g. drums and symbols.

You can change the instruments that make the sounds, by clicking on these icons.

By moving the dot along this bar, you can change the tempo, making it faster or slower.

This symbol lets you listen to the music that you have made!
